

# Sabino Springs Nature Club

## Join Us

*We connect with our Sabino Springs neighbors who share interests in the diverse Sonoran Desert ecosystem, educating, informing, and experiencing the awe of nature while contributing to our sense of community.*

We meet on the fourth Thursday of each month at 3:00 on the clubhouse patio ramada. We currently have 49 members.

### What we do:

- bird and critter walks (not just in Sabino Springs or the golf course)
- sharing photos
- reporting sightings of birds, critters, flowers, etc.
- plant identification
- hikes / field trips
- club social get-togethers
- book exchange. Bring your nature books to share to each meeting.
- book club

For more information, contact Gordon Nuttall at [gordonnu@gmail.com](mailto:gordonnu@gmail.com)

**note: This is an independent club / special interest group.** Is it not associated with the SSHOA Conservation and Land Management Committee or the Social Events Committee.
